**CARERS & THEIR CARED-FOR INVITE**

‘Getting Carers Connected’ is the Theme for 2019 by Carers UK. The Trust will deliver three Carer Events (3 hours each) in June 2019 on the following days. Each event is designed for specific service area so that staffs, service users and carers in the specific service teams can jointly engage to share and learn together, promote the Triangle of Care, HPFT Carer Pathway and the new HPFT Carers Work Plan 2019-21

Staff from each of the above named services is invited to register their interests at the earliest opportunity and also encourage carers and their cared-for to register as well. We look forward to working with you and carers in your representative service areas.
